PSScript Recovery - Complete File Map

Total Documents: 12 recovery files **Generated:** January 14, 2026 **Purpose:** Navigate all resources efficiently

---

🚨 START HERE (Priority Order)

1. EXECUTIVE_SUMMARY.md (5.1 KB) ⭐⭐⭐

MOST IMPORTANT - READ FIRST - High-level situation overview - 3-step fix procedure - Current status (60% operational) - Bottom line: 5 minutes to fix

2. CONSOLE_QUICKREF.pdf (3.8 KB) ⭐⭐⭐

PRINT THIS - KEEP IT OPEN - One-page command reference - Server credentials - All commands in order - Expected results checklist

3. CONSOLE_FIX_COMMANDS.sh (2.7 KB) ⭐⭐⭐

RUN THIS IN CONSOLE

```
bash /opt/psscript/CONSOLE_FIX_COMMANDS.sh
```

- Automated recovery script
- Fixes SSH + Backend
- Verifies all services
- Provides status report

📋 Step-by-Step Guides (4 Formats)

4. IMMEDIATE_FIX_STEPS.md (6.1 KB)

Primary Reference - Markdown Format - Detailed step-by-step instructions - Console access methods - Fix procedures - Verification steps - Best for: Reading in terminal

5. IMMEDIATE_FIX_STEPS.docx (13 KB)

Microsoft Word Format - Professional formatting - Tables and organization - Print-friendly - Best for: Printing, sharing via email

6. IMMEDIATE_FIX_STEPS.xlsx (13 KB)

Excel Format - 8 Worksheets - Overview - Step 1: Console Access - Step 2: Fix SSH - Step 3: Check Docker - Step 4: Fix Backend - Step 5: Verification - Troubleshooting - Quick Reference - Best for: Tracking progress, printing specific tabs

7. IMMEDIATE_FIX_STEPS.pdf (13 KB)

PDF Format - Portable, universal format - Email-friendly - No software required - Best for: Mobile viewing, archiving

---

📊 Technical Reports

8. STRESS_TEST_REPORT.md (15 KB)

Performance Testing Results - SSL/TLS: 55ms avg handshake, TLSv1.3 - HTTP: 128ms avg response time - Load: 50+ req/sec capacity - All metrics and benchmarks - Best for: Understanding system performance

9. DEPLOYMENT_SUMMARY.md (11 KB)

Complete System Status - What's deployed (8 containers) - What's working (60%) - What needs fixing (40%) - Configuration references - Commands cheat sheet - Best for: Technical overview

10. API_FIX_GUIDE.md (9.8 KB)

Backend Troubleshooting - Error 1033 explained - Diagnostic procedures - Fix procedures - Verification steps - Preventive measures - Best for: If backend issues persist

---

🔧 Recovery Plans

11. RECOVERY_PLAN.md (7.3 KB)

Full System Recovery - 5-phase recovery plan - SSH restoration - Service verification - Diagnostic commands - Best for: Complete system failure scenarios

12. EXECUTION_REPORT.md (8.4 KB)

Access Attempt Results - All remote access methods tested - SSH attempts (failed) - Alternative ports (failed) - Tunnel tests (frontend working) - DNS discovery (pbiaas.com) - Best for: Understanding why manual console access is needed

13. FINAL_STATUS.md (8.6 KB)

Complete Status Summary - Working components (60%) - Broken components (40%) - All test results - Next steps - Best for: Current state reference

---

📚 Additional Resources

14. README.md (11 KB)

Documentation Index - Complete file listing - Quick start guides - Useful commands - Support information - Performance metrics - Best for: Finding specific information

15. access_attempt_results.json

Raw Test Data - All access attempt results in JSON - SSH test details - Port scan results - Tunnel test responses - Best for: Technical analysis

---

📁 File Organization

```
/opt/psscript/

```

💡 Quick Decision Guide

I need to fix it NOW: → Read EXECUTIVE_SUMMARY.md → Open CONSOLE_QUICKREF.pdf → Run CONSOLE_FIX_COMMANDS.sh

I want detailed instructions: → Read IMMEDIATE_FIX_STEPS.md (or .docx, .xlsx, .pdf)

I want to understand the problem: → Read DEPLOYMENT_SUMMARY.md → Read API_FIX_GUIDE.md

I want performance data: → Read STRESS_TEST_REPORT.md

I want to know what was tried: → Read EXECUTION_REPORT.md → Read FINAL_STATUS.md

I want to understand the architecture: → Read DEPLOYMENT_SUMMARY.md → Read README.md

I need to troubleshoot after fix: → Read API_FIX_GUIDE.md → Read RECOVERY_PLAN.md

---

📱 Format Recommendations

For Mobile/Tablet

- CONSOLE_QUICKREF.pdf (easiest to view)
- IMMEDIATE_FIX_STEPS.pdf
- EXECUTIVE_SUMMARY.md (if you have a markdown viewer)

For Desktop

- Any format works
- Markdown (.md) files best in terminal/VS Code
- Excel (.xlsx) great for tracking progress

For Printing

- CONSOLE_QUICKREF.pdf (1 page)
- IMMEDIATE_FIX_STEPS.docx (best formatting)

For Sharing

- EXECUTIVE_SUMMARY.md (quick overview)
- IMMEDIATE_FIX_STEPS.pdf (universal format)

🎯 Common Scenarios

Scenario 1: "I just want to fix it"

Files needed: 3 1. EXECUTIVE_SUMMARY.md 2. CONSOLE_QUICKREF.pdf 3. CONSOLE_FIX_COMMANDS.sh

Time: 5 minutes

Scenario 2: "I want to understand everything first"

Files needed: 5 1. EXECUTIVE_SUMMARY.md 2. DEPLOYMENT_SUMMARY.md 3. STRESS_TEST_REPORT.md 4. IMMEDIATE_FIX_STEPS.md 5. API_FIX_GUIDE.md

Time: 20 minutes reading

Scenario 3: "I want to track progress carefully"

Files needed: 2 1. IMMEDIATE_FIX_STEPS.xlsx (track in spreadsheet) 2. CONSOLE_FIX_COMMANDS.sh (run the fixes)

Time: 10 minutes

Scenario 4: "Something went wrong during fix"

Files needed: 3 1. API_FIX_GUIDE.md 2. RECOVERY_PLAN.md 3. DEPLOYMENT_SUMMARY.md (for reference)

Time: 30 minutes troubleshooting

📊 File Size Summary

Category	Files	Total Size
Priority (Start Here)	3	11.6 KB
Step-by-Step Guides	4	45.1 KB
Technical Reports	3	35.8 KB
Recovery Plans	3	24.3 KB
Additional Resources	2	11 KB + JSON
TOTAL	**15**	**~128 KB**

All documentation fits on a single floppy disk (1.44 MB)! 💾

✅ Verification Checklist

Use this to ensure you have everything:

- [ ] Read EXECUTIVE_SUMMARY.md
- [ ] Printed/opened CONSOLE_QUICKREF.pdf
- [ ] Know where CONSOLE_FIX_COMMANDS.sh is located
- [ ] Have chosen your preferred format for detailed steps
- [ ] Understand the current status (60% working)
- [ ] Know what will be fixed (SSH + Backend)
- [ ] Estimated time to fix (5-10 minutes)

🔍 Search Tips

Find Specific Commands

→ CONSOLE_QUICKREF.pdf or README.md "Useful Commands"

Find Error Information

→ API_FIX_GUIDE.md or STRESS_TEST_REPORT.md

Find Container Info

→ DEPLOYMENT_SUMMARY.md "Docker Services"

Find Performance Data

→ STRESS_TEST_REPORT.md "Performance Metrics"

Find Credentials

→ EXECUTIVE_SUMMARY.md or CONSOLE_QUICKREF.pdf

📞 Still Need Help?

If you've read the documentation and still have questions:

1. **Check:** README.md - Most comprehensive index
2. **Search:** All .md files are text-searchable
3. **Review:** EXECUTION_REPORT.md to see what was already tried
4. **Contact:** morlok52@gmail.com (Dave)

Pro Tip: Bookmark this file! It's your navigation hub for all recovery documentation.

Generated: January 14, 2026 **Purpose:** Navigate 15 recovery documents efficiently **Status:** Complete documentation package ready
