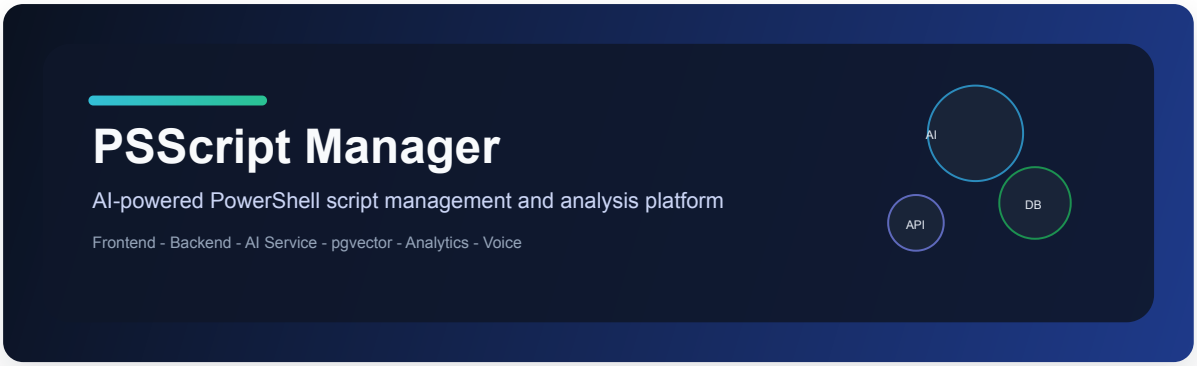
Navigation, onboarding, and deep-dive references

PSScript Manager Docs

PSScript Documentation Hub

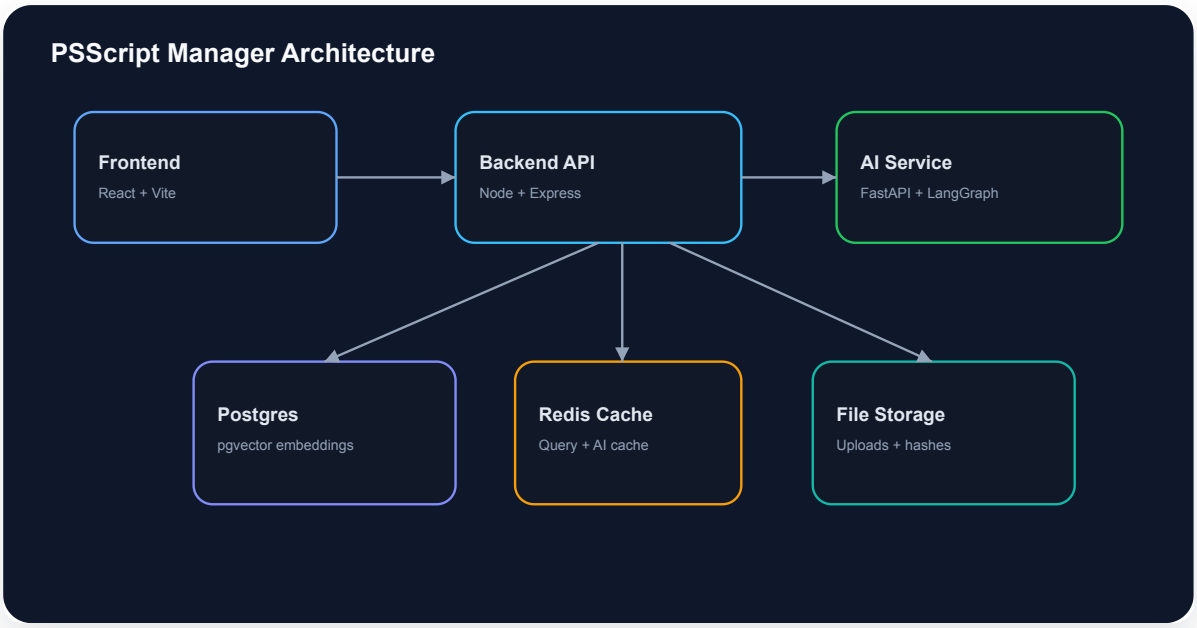


Welcome to the documentation hub for PSScript Manager. Use this page to navigate onboarding, deployment, and feature documentation.

Quick links

- Getting started: `GETTING-STARTED.md`
- Docker setup: `../DOCKER-QUICKSTART.md`
- Management playbook: `MANAGEMENT-PLAYBOOK.md`
- Training suite: `training-suite/README.md`
- Training guide: `training-suite/TRAINING-GUIDE.md`
- Support: `SUPPORT.md`

Platform overview



Documentation map

Area	Description	Link
Onboarding	Setup, accounts, first run	`GETTING-STARTED.md`
Docker	Infrastructure setup	`../DOCKER-QUICKSTART.md`
Vector search	pgvector and embeddings	`README-VECTOR-SEARCH.md`
Voice API	Voice features	`README-VOICE-API.md`
Management	Rollout plan and KPIs	`MANAGEMENT-PLAYBOOK.md`
Training	Modules and labs	`training-suite/README.md`
Support	Triage and operations	`SUPPORT.md`
Reference sources	Style inspirations	`REFERENCE-SOURCES.md`

Exported formats

Run `scripts/export-docs.sh --all` to generate HTML, PDF, and DOCX exports in `docs/exports/`.

With the backend running, exports are available at http://localhost:4000/docs/exports/.
