Documentation Build Checklist

This tracker captures the documentation upgrade scope and verification steps for the README, training suite, and exports.

Scope goals

- [x] Expand README for beginners, engineers, and management phases
- [x] Add management playbook with phased rollout guidance
- [x] Add new diagrams and visuals for phases, governance, and data model
- [x] Refresh screenshots using Playwright
- [x] Regenerate HTML/PDF/DOCX exports
- [x] Update in-app Settings links to new docs
- [x] Validate outputs and record checks

Research log

- [x] Review README patterns from Supabase and Prisma
- [x] Review support doc patterns from Istio and Terraform
- [x] Update reference source list with new examples

Verification log

- [x] Playwright screenshots captured
- [x] Docs exported to HTML, PDF, DOCX
- [x] PDFs open and render images
- [x] README and management docs linked from Settings

Notes

Validation notes (2026-01-12): - README.pdf pages=34, images=12 - Training-Guide.pdf pages=20, images=10 - Training-Suite.pdf pages=15, images=0 (vector diagrams render as paths) - Management-Playbook.pdf pages=16, images=1 - Support.pdf pages=9, images=0
